Application for Senior IT Role

I'm delighted to see that you are hiring for the above role. As my profile fits, perfectly with your job requirements and I would like to submit my application for the same. If the role is still open kindly consider my application.

My core strengths are: Highly malleable and ductile in nature. there would not any gaps between my words and my delivery, secondly people would listen to me either technically or managerially or procedurally as it is meaningful, expressive & focused as I always measure twice cut once. Worked on couple of billion-dollar engagements as a tower lead. Handled maximum of 1200 people in my team. Managed big mega- gamma accounts (over 100 million pounds an year)

Since I relieved from my previous organization, I'm ever-ready to join. Hope this information suffice for my application submission if not feel free to get in touch with me using any of the communication medium mentioned above, Many Thanks

Regards

M. Krishnakumar
