Email: walterhelwich@gmail.com

Walter Helwich was born in New York, and after a childhood in which he did very well academically, he went on to attend University of California. There he studied at the Department of Computer Science and graduated with a Bachelor's Degree in Mathematics. After graduating from University of California, he went to study advanced software technologies at the Computing Faculty in Columbia. While he was still going to school, Walter Helwich attended a lecture about on new, developing computer system, which eventually changed the course of his life. He was fascinated by what he heard and wanted to find out more.Following his newly discovered passion, he began studing several programming languages like PHP, Java, Python, Javascript, HTML5, PL / SQL, Objective C, C# and others.

Somewhere in the late 90's, he began working on the development of applications for some of America's leading IT companies. He was team leader for various software development projects (Casino Platform project and Lottery outsource project), and then was shifted to the position of top management, as a technical director. Currently Walter Helwich leads the team at the company he co-founded "Walter Martin Helwich & Co." As an IT programmer, Walter comes with great experience and thorough knowledge of several programming languages.

EXPERIENCE

Walter Martin Helwich & Co
January 2004- Present

Founder

Walter Helwich works alongside other scientists, helping develop more advanced computer systems and software. He he also dedicated much of his career work on developing operating systems for portable computers and mobile platforms.

EDUCATION

University of California
October 1994- June 1998

Bachelors of Computer Science

Learning applied mathematics, advanced software technologies and operating systems.

SKILLS

Programming languages like PHP, Java, Python, Javascript, HTML5, PL / SQL, Objective C, C# and others
