Mr. Botzolakis' past experience includes a position with Kabco Pharmaceuticals in Amityville, New York, as director of operations, where he oversaw a team of 100 employees in the manufacture of nutritional products. Undertaking independent research, Mr. Botzolakis also developed pharmaceutical products with Warner Lambert's Parke-Davis Division. He holds three US patents, including one for an "Apparatus for Measuring Capsule Plug, Granule and Pellet Hardness." He has published widely in his field, including a presentation titled "Evaluation of Powder Mixtures in Hard Gelatin Capsules, Using a Capsule Compaction Simulator," which he delivered at an American Association of Pharmaceutical Scientists meeting.
