

# Aditya Babbar

Co-Founder, Resumonk

**Address:** Ranikhet Area, Uttarakhand, India

**Email:** aditya.babbar.1@gmail.com

- I love building high quality software products that help in simplifying the lives of the users.
- I run a bootstrapped venture called [Resumonk](#) that lets you create a beautiful & professional resume in minutes. It has over 20,000 paying customers in 80+ countries and has helped over 1M job seekers so far. I take care of all non-technical work in it including product definition & testing, user acquisition & retention, and providing customer support.
- I've taken a break from programming now, but automating tasks to make work easier or making commits & deploying changes comes naturally to me.
- I'm good at doing both high-level & detailed planning and more importantly executing those tasks individually or with the help of a team. I'm also adept at managing people (including freelancers).
- I've been bootstrapping since 2010. I know the challenges that come along with building startups and what it takes to make them work. I'd love to be a part of a great team trying to build a world class company.

## EXPERIENCE

Feb 2013 -  
Present

### Resumonk Co-Founder

- Resumonk is an online resume builder that lets you create a beautiful & professional resume in minutes.
- Our net promoter score is over 50 and this is what [our users say about us](#).

Apr 2010 - Jul  
2015

### eduOrbit Founder

- eduOrbit was a SaaS product created using Ruby on Rails and it was used by K-12 schools in India to comply with CBSE CCE guidelines for generation of results.
- Built this venture as a solopreneur. Although it wasn't a financial success but it helped me learn a lot and set me up for Resumonk.

Oct 2007 - Mar  
2010

### Impetus Infotech (I) Pvt. Ltd. Technical Architect

- Led a team to create an open source Ruby Application Server, and a HTTP sniffer.
- Part of the internal R & D group that developed MVPs for new ideas, and also provided technical inputs to help the sales team close multi-million dollar deals for services projects.

Dec 2005 - Oct
