

Aditya Babbar

Co-Founder, Resumonk

Address: New Delhi Area, India

Email: aditya.babbar.1@gmail.com

EXPERIENCE

* I love building high quality software products that help in simplifying the lives of the users.

* I have bootstrapped 2 ventures so far. [Resumonk](#) lets you create a beautiful & professional resume in minutes. eduOrbit was used by K-12 schools in India to comply with CBSE CCE guidelines for generation of results.

* I started out as a generalist programmer, and now I focus mainly on user acquisition & retention.

* In my previous companies, I have been part of teams that built an open source Ruby Application Server, rewrote an Insurance product from scratch, developed distributed server management software, wrote HTTP sniffer, and created software that has improved productivity of a BPO data entry team by 4X.
