Email:	NA

With a broad background of training and expertise as a researcher and lab director, Dr. Alex Stojanoff began laying the foundation for his decades-long career at the University of Melbourne, where he received a bachelor of science in pathology with honors. Following this, he earned a master of science at Australia's Monash University before returning to the University of Melbourne to complete a doctorate with the Department of Obstetrics and Gynecology. While there, his research work in reproductive medicine earned him the Junior Scientist of Australia Award. In 1995, Dr. Alex Stojanoff received high complexity laboratory director certification in conjunction with the American Association of Bioanalysis.

Currently, Dr. Alex Stojanoff serves as president, chief executive officer, and laboratory director for United Fertility Centers of America, a company he founded in Las Vegas, NV. A fully qualified professional, he maintains licensure by the State of Nevada and the Department of Health and Human Services.
